

CLAIMS

1. Use of a compound of formula I

wherein

R is methyl or ethyl;

R₁ is chloro or fluoro;

R₂ is hydrogen or fluoro;

R₃ is hydrogen, fluoro, chloro, methyl, ethyl, methoxy, ethoxy or hydroxy;

R₄ is hydrogen or fluoro; and

R₅ is chloro, fluoro, trifluoromethyl or methyl;

or a pharmaceutically acceptable salt or prodrug ester thereof,

in the preparation of a medicament for use in the treatment of an angiogenesis-mediated ocular disorder.

2. A method of treating an angiogenesis-mediated ocular disorder in a subject in need of such treatment which comprises administering to the subject an effective amount of a compound of formula (I) as defined in claim 1, or a pharmaceutically acceptable salt or prodrug ester thereof.
3. A package comprising a compound of formula I as defined in claim 1 or a pharmaceutically acceptable salt or prodrug ester thereof, together with instructions for use in the treatment of an angiogenesis-mediated ocular disorder.

- 20 -

4. Use according to claim 1 or method according to claim 2 or package according to claim 3, in which the compound of formula I is 5-methyl-2-(2-chloro-6-fluoroanilino)-phenylacetic acid or a pharmaceutically acceptable salt thereof, or a pharmaceutically acceptable prodrug ester thereof.
5. Use according to claim 1 or method according to claim 2 or package according to claim 3, wherein the angiogenesis-mediated ocular disorder is selected from ocular neovascularisation, retinal neovascularisation, including neovascularisation following injury or infection, retrolental fibroplasias, and neovascular glaucoma, age-related macular degeneration, diabetic retinopathy, diabetic macular edema, pathologic myopia, ocular histoplasmosis, neovascular glaucoma, retinopathy of prematurity, the after effects of corneal transplantation, control of postsurgical ocular inflammation (e.g. after cataract surgery), cystoid macular edema (CME) and herpes keratitis.
6. Use according to claim 1 or method according to claim 2 or package according to claim 3, wherein the compound of formula I is in the form of an oral composition.
7. Use according to claim 1 or method according to claim 2 or package according to claim 3, wherein the compound of formula I is in the form of a topical composition.
8. Use or method or package according to claim 6, wherein the angiogenesis-mediated ocular disorder is selected from age-related macular degeneration, diabetic retinopathy and diabetic macular edema.
